PROFESSIONAL SUMMARY

Entry-level Full Stack Web Developer with hands-on knowledge of PHP, Laravel, MySQL, JavaScript, React.js, HTML, CSS, and Bootstrap. Currently working as a PHP/Laravel Developer at CodingClave Development LLP, gaining practical experience in backend web development and Laravel-based applications. Experienced in building responsive, mobile-first web applications and frontend projects, with a strong interest in pursuing full-stack development roles focused on PHP/Laravel.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, C++
Frontend: React.js, HTML5, CSS3, Bootstrap
Backend: PHP, Laravel
Database: MySQL
Tools & Other: Git, GitHub, REST API, Problem Solving

EXPERIENCE

PHP/Laravel Developer — CodingClave Development LLP

June 2026 – Present

- Working with PHP and Laravel technologies to develop and maintain web application features.
- Gaining practical experience with Laravel application structure, backend development, database integration, and CRUD-based functionality.
- Working with MySQL and applying web-development concepts in a professional development environment.
- Practicing debugging, code organization, and implementation of application requirements using PHP/Laravel.

PROJECTS

Personal Finance & Budget Management System — Core PHP, MySQL, Bootstrap, JavaScript

- Developed a database-driven application for managing income, expenses, categories, and budgets.
- Implemented user authentication and role-based access control to secure application data.
- Built CRUD operations for income, expense, and category records, along with dynamic financial summaries.
- Applied secure database operations to ensure reliable and consistent financial data handling.

EmergencyLens — Emergency Guidance Web Application

- Built a React.js web application providing guidance for 5+ emergency situations through an interactive questionnaire.
- Implemented one-click emergency calling functionality and a mobile-first responsive interface.
